

Usage of Vertical Waste Compactor (Marine /Offshore Type)

Specially used for compressing the waste like food residue, paper, plastics, disposable tableware etc. which widely applied by the vessels, drilling platform, island, harbour, restaurant, hotel and hospital etc.

Features of Vertical Waste Compactor (Marine /Offshore Type)

- Machine's frame is strong and powerful for odious environment;
- Equipped with stainless inner box to avoid corrosion;
- The machine with professional enclosed design to avoid dust in;
- The ram will stop running downwards when the feeding gate is opened which ensure the safety of the operation
- Equipped with independent emergency stop for safe operation
- Special ram guides design makes the platen not slope because of uneven materials feedings during compression
- Equipped with NOK seals that from Japan means longer lifespan of the seals
- Equipped with A.M.C. oil pipe joints that from Japan ensures the machine far away from oil leakage problems

Model	TIWC50LA45
Pressure	5 tons
Feed Opening Size	540*300 mm
Baling Chamber Height	810 mm
Inner box size	536*426*500 mm
Power	1.5 kW
Machine Weight	500 kgs
Machine Overall Dimension	700*500*1958mm
Voltage	440V/415V/380V-3PH-50/60Hz
